

TracKing

TRACKING: THE INTELLIGENT CHOICE FOR TEMPERATURE AND ASSET MONITORING

Thermo King, a brand of Ingersoll Rand, was founded in 1938 and leads the world in manufacturing and innovating transport temperature control systems for a variety of mobile applications, including trailers, truck bodies, buses, shipboard containers and rail cars. For nearly 80 years, Thermo King has delivered superior products and performance for its customers. Leveraging this experience and knowledge, TracKing gives you end-to-end visibility of your refrigerated assets over the road and in the yard delivering temperature compliance and increased productivity.

TRACKING AND WABCO OPTILOCK™ INTEGRATION

Cargo security is one of the main concerns of our customers. Through the integration of WABCO's electronic locking system, Thermo King customers will be able to see the status of their trailer doors locked by WABCO ELB-Lock® in real time on TracKing platform. TracKing platform 2-way communication and notification system allow the user to be proactive in monitoring and managing cargo security.

**The value is not in the data,
but in the insights.**

TrackKing

BENEFITS

Improved asset security and utilization

With visibility of door lock status and door opening, your operators can monitor actions at unplanned stop locations and reduce unauthorized usage of trailers.

Increased cargo protection and liability management

With easy access to information related to door opening events, you can help to prevent theft. Moreover, you can reduce the risk of drivers being mistakenly held responsible for fraud or theft.

Increase cargo protection and better dispatcher response time

Real time visibility on door activities, help dispatchers to prevent interruptions of the cooling chain. Remotely, your dispatcher can lock and unlock the trailer doors.
